Belagavi, Karnataka

Profile

Computer Science undergraduate with strong hands-on experience in **web development** and **DevOps practices**, building and deploying full-stack applications with modern tooling. Working knowledge of **network security** and exposure to **machine learning**-based analysis, backed by a solid foundation in data structures, object-oriented programming, and databases; seeking **Web Development** or **Software Engineering** internship opportunities.

Education

Vellore Institute of Technology, Bhopal 2023 – 2027
Bachelor of Technology in Computer Science *CGPA: 7.96/10*

Karnataka School Examination and Assessment Board 2023
Class XII *80.66%*

Karnataka School Examination and Assessment Board 2021
Class X *85.44%*

Technical Skills

Languages: C++, Java, Python, JavaScript, HTML5, CSS3
Frontend: React.js **Backend:** Node.js, Express.js
Databases: MongoDB, MySQL **Core CS:** Data Structures & Algorithms, OOP, Operating Systems, DBMS
Tools: Git, GitHub, Linux, AWS, VS Code, Wireshark, NumPy

Projects

SecureImage – Hybrid AES-256-CBC & LSB Steganography Framework *Python, NumPy, Tkinter*

- Developed a desktop application combining **AES-256-CBC encryption** with **LSB image steganography** for secure data hiding.
- Achieved **3.3 MB embedding capacity** in 4K images while maintaining **50 dB PSNR**, preserving visual quality.
- Validated **100% data integrity** across **100,000 test cycles** using Python and NumPy.

Greedy/Selfish Attack Analysis on IEEE 802.11 Using AI/ML *Wireshark, PyShark, ML*

- Developed an **AI/ML framework** to detect greedy and selfish attacks in **IEEE 802.11 wireless networks**.
- Analyzed wireless traffic using **Wireshark** and **PyShark** with packet-drop, throughput, and transmission-pattern features.
- Achieved **95% detection accuracy** with **Random Forest** and a **92% F1-score** with **K-Means clustering**.

CNN Soybean Disease Classification *Python, PyTorch, CNN, ResNet18*

- Contributed to a deep-learning system for classifying soybean leaf diseases across **5 classes** using a custom **CNN** and **ResNet18** transfer learning.
- Handled **system integration, hardware configuration, and software environment setup**, supporting model checkpoint preparation and deployment setup.
- Supported preprocessing and augmentation workflows; **ResNet18** achieved approximately **94–96% validation accuracy**.

Leadership & Activities

- **Event Management Co-Lead, Fusion Club – VIT Bhopal** – Co-led campus events by coordinating cross-functional teams, managing logistics, and supporting end-to-end execution.
- Built **leadership**, **teamwork**, **communication**, and **project-coordination** skills through student event management.

Languages

English, Hindi, Kannada, Marathi
